32BJ members who clean the terminals at Logan Airport won a BIG victory this month: \$140,000 in back wages, 100% full time jobs and benefits! Because we have advocated for policies that set the standards for publicly contracted cleaning jobs in Boston, the workers should have been getting higher wages and better benefits & hours. This week they got their checks from the company! We will keep fighting for the good jobs all workers deserve!

City workers alleged that Berkeley managers have intimidated workers, engaged in unlawful surveillance and interfered with the right to protest, according to a press release from SEIU Local 1021. Webb added that workers had to vote for this authorization during their lunch break and that many felt pressure from management not to vote. "We've been receiving (Donald) Trump-like intimidation tactics from management, even just to vote for this authorization," Webb said.
