Does YOUR district have air conditioned classrooms? How HOT our classrooms are has been a topic of much debate in various districts through some unseasonably hot days this spring - and as we move into even hotter days of Summer School. It's also something that came up throughout the Blue Ribbon Commission on School Funding hearings - where the gaps between "have" and "have not" districts was illustrated around the state. And while some people have taken the moment to challenge district...

How do you teach vocabulary--or do you?

10 Dos & Don'ts For Teaching Vocabulary In Any Content Area

DO THIS	NOT THAT
1. Don't waste too much time on words that are not essential to the text.	1. Assign long lists of words to be memorized. (But never teach LEARN the words.)
2. Don't stress on rote memorization of words.	2. Have students use words in context. (e.g., write a paragraph using the words.)
3. Help students to come up with their own definitions.	3. Have students simply copy definitions.
4. Assess student use of words in authentic writing and speaking.	4. Give students multiple-choice tests on word definitions.

It's because all of our students deserve an amazing public education. #IEAstronger

IT'S BECAUSE...

our teachers matter.
 our support staff matter.
 every child deserves to be noticed.
 our students deserve the best education.
 its not just a 40-hour work week.
 decades old technology just isn't cutting it.
 we need safe schools now.
 we deserve fair pay for our work.
 we believe in our students' bright futures.
 our schools should be fully funded.
 our school buildings are falling apart.
 extra-curriculars are important.
