In state after state, health insurance rates are soaring because President Trump and Republicans in Congress are intent on dismantling our health care system. New York insurers want to hike rates by 24%, on average, carriers in Washington are looking for a 19% average premium increase and Kaiser Permanente wants to boost premiums by more than 37% in Maryland. At a time when millions of Americans cannot afford health care costs today, and when more than 60 million people are uninsured or...

Trump moves pushing up Obamacare premiums for 2019

Insurers are proposing big premium hikes for Obamacare plans for 2019.

As a mother and a grandmother, I'm horrified by the reports of how the President Trump is separating children from their parents at the border and tearing families apart. It's unnecessarily cruel and goes against our values as Americans. This is no way to treat children, parents, or any human — and we can't allow this to continue unchecked.

Connelly: Eight state lawmakers -- stop taking immigrant children from families

Eight Washington lawmakers, and nearly 150 of their Senate and House colleagues, issue a call: The Trump...

Over the past couple of weeks, we have lost some very well-known people, near and dear to so many in New York, but in the past year, we have lost tens-of-thousands of lives to suicide in this country. 45,000 to be exact. One is too many. 45,000 demands action. Read more:

Schumer: Rising suicide deaths show feds need to spend more on prevention - NY Daily News

I want to share with you advice that I give to my friends, family, and staff. Every now and then during these unsettling times, it is important to go on a "news diet" for 24 to 48 hours. Non-stop obsessing over Trump's reckless, rude, and thoughtless antics adds no value to your life. My challenge to you: take a break. Let's start the week with renewed energy and commitment to stop Trump's destructive behavior and policies. The best way we can do this is to speak the truth and...

Multi-national corporations based in the U.S. and other major countries are stashing nearly 40 percent of their profits in offshore tax havens like the Cayman Islands to avoid paying their fair share in taxes and enriching wealthy shareholders, according to a recent study. At a time when governments all over the world are imposing austerity on their people—including Trump’s budget, which proposed massive cuts to Medicare, Medicaid, education and environmental protection—the wealthiest...

Ahead of the summit between Donald Trump and Kim Jong Un in Singapore, I urge Trump to remain clear-eyed about north Korea's long history of violating previous denuclearization promises. He must not sell out our South Korean and Japanese allies or undermine our own national security interests in search of a dramatic television moment consisting of more style than substance. Details matter here and, when it comes to Kim Jong Un, could very well be the difference between life and death for...
