Rain fell throughout the day but spirits were high and everyone had a blast. Thanks to John Rocco for planning the event and all the Local 825 volunteers who helped make the day run smoothly.

Thousands upon thousands of skilled-trade positions are open right now — and companies are having trouble filling them."

Great job IUPAT District Council 57! According to a report published by a worker advocacy group, Community Labor United, "...across the country, employers are subcontracting and outsourcing their work and distancing themselves from their responsibilities to their employees. Through practices such as multi-layered contracting, the use of staffing or temporary employment firms, franchising, misclassifying employees as independent contractors, and other means, employers are turning..."

Late last week WGN Radio host Justin Kaufmann was joined by Leopardo's George Tuhowski and Denk & Roche's Terrence Roche, representing Chicagoland's Associated General Contractors of America (AGC). The show focused on the role of the AGC, the amount of construction in Chicago, the importance of changing the way people view construction jobs, why there is a need for younger people to learn a trade, what needs to be done to get young people interested in a career in a skilled trade, how they make a skilled trades job attractive to young workers.

What makes a skilled trades job attractive to young workers?
