Without a "major overhaul" to our broken healthcare system experts project this situation will only get worse. As the wealthiest country in human history, we have a moral imperative to guarantee healthcare for all with expanded and improved #MedicareForAll.

Same cancer, worse results and twice the cost in the US  
Americans paid twice as much as Canadians for health care, but they didn't get twice the benefit, in fact...

San Francisco voters on Tuesday delivered a truly historic victory for kids and health over the tobacco industry by overwhelmingly upholding the city's law banning the sale of flavored tobacco products. The city’s voters rejected a nearly $12 million campaign by the R.J. Reynolds tobacco company aimed at overturning the law and preserving the tobacco industry’s ability to target kids with candy-flavored products. This year's Puerto Rican Day Parade in New York City was especially meaningful for NYSNA. The suffering that the island endured over the last year cast a special urgency to this year's demonstration. NYSNA nurses saw firsthand, with our medical missions, the resilience of the Puerto Rican people. We brought that spirit and enthusiasm to Sunday's parade. As we danced through the streets of Manhattan, we showed our resolve and our joy in the face of tragedy. Se levanta Puerto Rico.
